MANAGEMENT DISCUSSION & ANALYSIS REPORT

Overview

The Indian electrical equipment industry comprises of two broad segments – generation equipment (boilers, turbines, generators) and transmission & distribution (T&D) and allied equipment like transformers, cables, transmission lines, switch gears, capacitors, energy meters, instrument transformers, surge arrestors, stamping and lamination, insulators, insulating material, industrial electronics, indicating instruments, winding wires, etc.

Sector Analysis

- The present scenario of the transmission & distribution industry is very dynamic with increasing resources of state government to provide power supply to consumers.
- The generation equipment sector is around 15% of the total industry, while the T&D equipment sector is the rest 85% of the Industry. Generators, Generating Sets & Parts, Switchgear and Control gear, Transformers & Parts, Cables, Industrial Electronics, Boilers & Parts, and Transmission Line Towers etc.
- The sector boasts of a diversified, matured and strong manufacturing base backed by a robust supply chain. Rugged performance design of equipment to meet tough network demand and presence of major foreign players, either directly or through technical collaborations with Indian manufacturers is a testimony of unique advantages India holds in this sector.
- With state-of-the-art technology in most sub-sectors at par with global standards, the major export markets for Indian electrical equipment are USA, Germany, UAE, Saudi Arabia, France, UK, Nigeria, China, Kenya and Brazil. The major export products are Rotating Machines (Motors, AC Generators, and Generating Sets) & Parts, Switchgear and Control gear, Transformers & Parts, Cables, Industrial Electronics, Boilers & Parts, and Transmission Line Towers etc. (Source: <http://ieema.org>)

Industry Structure and Development

India's electrical equipment industry is highly diverse and manufactures a wide range of high and low technology products. The industry directly employs around half million persons and provides indirect employment to another one million people. The industry can be broadly classified into two sectors – generation equipment and T&D equipment. Other electrical equipment, including instrument transformers, surge arrestors, stamping and lamination, insulators, insulating material, industrial electronics, indicating instruments, winding wires, etc., contributed to `25,000 Crore (US\$ 5.2 billion).

There has been an overall growth in most segments of the electrical equipment industry — in boilers, turbines, generators, transformers, switchgears, and wires and cables due to the high demand from central and state power utilities. India's EE industry is expected to grow steadily and witness growth opportunities as a result of the government's focus on capacity augmentation across generation, transmission and distribution. Annexure – B to the Auditors’ Report

Report on the Internal Financial Control under clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the Internal Financial Control over Financial Reporting of RMC SWITCHGEARS LTD. (“the Company”) as on 31 March 2018 in conjunction with our audit of the financial statements of the company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Control over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
